Jay Paneliya

PHP Developer

Surat, India 395010• +91 63533 02600 • jaypaneliya18@gmail.com

SUMMARY

- Results-driven PHP Developer with a strong background in frontend technologies, including HTML, CSS, JavaScript, and React.js. Adept at designing and integrating robust backend solutions with a keen eye for problem-solving and performance optimization.
- Experienced in building scalable web applications using PHP, Node.js, and modern frameworks. Passionate about implementing and launching new projects, translating business requirements into seamless technical solutions.
- A collaborative team player with a proactive mindset, committed to delivering clean, efficient, and user-friendly code.

WORK EXPERIENCE

(2 year experience in live work and 6 month in training)

Future Technologies

6 month - training

- Skill in Web development technology such as HTML, CSS, JavaScript, React.js, Tailwind CSS, PHP.

2 year - PHP, CodeIgniter Framework

- Front-End Development: Worked extensively with React.js, HTML, CSS, and JavaScript, ensuring responsive and user-friendly web interfaces. Implemented dynamic components and optimized UI/UX for better engagement.
- Backend Development: 2 years of experience in PHP and CodeIgniter, developing scalable and secure web applications. Designed and maintained RESTful APIs for seamless client-server communication.
- Database Management: Implemented CRUD (Create, Read, Update, Delete) operations using MySQL, optimizing database queries for better performance. Designed relational database schemas to support business requirements efficiently.
- API Integration & Testing: Used Postman for API testing and debugging, ensuring smooth data exchange between frontend and backend. Integrated third-party APIs for payment gateways, authentication, and external services.

EDUCATION

Saurashtra University   **March-2020**
- Parishram Shaishanik Sankul (89.52%)

Bachelor of Computer Application   **April-2023**
- Sahajanand College of IT and Management (78.16%)

Master of Computer Application   **March-2024**
- JAIN University (Bangalore) -- Running

SKILL

- Programming Languages: PHP, JavaScript
- Back-End: CodeIgniter, Core PHP, Laravel (basic), Node.js (optional)
- Front-End: HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, jQuery, AJAX
- Database: MySQL, PostgreSQL
- API Development & Integration: RESTful APIs, Third-Party API Integration (e.g., Payment Gateway, Authentication)
- Tools & Technologies: VS Code, Git, GitHub, Postman, cPanel, Firebase
- Version Control & Deployment: Git, GitHub, cPanel, DigitalOcean, AWS (basic)
- Performance Optimization: Code refactoring, query optimization, caching techniques
